1. Registration to the platform	2
2. Registration to the tournament	2
3. Confirm entry	3
4. Check status / Withdraw	3
5. Apply for a partner search	3
6. Add a post	4
7. Make a bet in "Guess the Winner" contest	4

## 1. Registration to the platform

Link: <https://beachtennis.io/register>

To get access for most of platforms features player must create an account (user/player profile). To complete registration player needs to fulfill standard form that includes the same fields that are in Excel Entry form that players send to ITF tournament organizers (+ a few additional ones). Once profile is created player can register for tournaments in a few clicks as information he (player) submitted during the registration is now securely stored in the platforms database.

## 2. Registration to the tournament

If tournament start date has not expired and registration for the tournament is not closed, on the tournament page player can see "REGISTER" button. Once the button is clicked, player is redirected to the tournament registration page.

For platform users (logged in), registration for any tournament is very easy and straightforward. Player selects category and partner from the list and clicks "Register" button. And that's it! 3 seconds and registration for the tournament is completed!

If one of players is not platforms user, than below players selection must be checked box "Player is not platforms user" and then all showed up fields must be filled in. In case both players are not platform users then all fields of standard entry form must be completed.

Once pair (player) signs up entry goes to "Requests" section and organizer gets email notification. As soon as organizer approves the entry, it will be moved to entry list and visible for everyone.

### 3. Confirm entry

*If player who has submitted registration form is a platforms user then he doesn't need to confirm the entry. If entry is already in entry/acceptance list or is added by the organizer, then both players don't need to confirm entry.*

Confirm entry must second player, or both players (if form was submitted by the guest).

If payer is platforms user then he needs to go to the tournaments page and in "Your requests" section click icon "Settings" and then "Confirm participation" button.

If player is not platforms user then he needs to confirm participation via email (message with information is sent automatically to the players once form is submitted). In email is button "CONFIRM NOW". Once button is clicked - players participation is confirmed.

### 4. Check status / Withdraw

*Only platform users can check status of their entries.* Check entries status / withdraw from the tournament is possible on a tournament page under "Your requests" section. Next to the entry is displayed "Settings" icon. Once icon is clicked will show up modal. On that modal is displayed information about the entry and "Withdraw" button (before withdrawal deadline). To withdraw from the tournament player must click that button and identify withdrawal reason. Once it's done entry will be moved to "Withdrawals" section.

### 5. Apply for a partner search

*For a partner search can apply only platform users.* If player wants to play a tournament and doesn't have a partner he can apply for a partner search on a tournament page under "Partner search" section. To apply, player needs to click "Apply" button and fill in the details. Once form is submitted partner search entry will be displayed on a tournament page + /partner-search page. Once player signs up for a tournament, partner search entry automatically will be deactivated (status will be changed to "found").

## 6. Apply for a new role

If user wants to apply for a new role (organizer or referee) then he needs to go to the following link: <https://beachtennis.io/apply>

## 7. Add a post

Every platforms user can run his own blog. To add a post user needs to go to profile and in the menu click "Add post" button.

## 8. Make a bet in "Guess the Winner" contest

Link: <https://beachtennis.io/gtw>

Every platforms user can take part in "Guest the winner" contest. To do so user needs to make bets on match winners. Make a bet is possible only for matches that are added to the "betting" and have "upcoming" status. Active matches can be found on a link above.

Every match have 2 teams and each team has odds. To make a bet user must select on which pair he wants to make a bet and click on odds (button) that are under selected pair. Once button is clicked will show up modal with bet details. To complete the process user must fill in "How much points" he wants to bet and click a button "Submit".

Every user initially has 100 GTW points + every month points are going to be updated to 100 in case user has less than this amount.

Points can be exchanged to the prizes from our partners (prizes list is displayed under "Prizes" section on the GTW page).
